A special telegram to the Advocate from Columbus states that an investigation of the boating accident at Buckeye Lake Thursday which caused the drowning of 7 or more colored persons was ordered today by John I. Miller, superintendent of state public works. The officials of the resort will make the investigation. Superintendent Miller thinks the launch Wilda which was upset, causing the accident, must have been steered out of the regular channel when the accident occurred.

The seventh victim of the capsized boat "Wilda" was recovered at 2:30 Saturday afternoon when Ivan R. Tannhill, Advocate Staff man, who has been at the lake all day, discovered the head of a man bobbing up and down in the wake of a passing motor boat. Tannhill secured the assistance of a man named Thompson at Fickie's landing and the body was brought to shore. It is yet unidentified.

Tannhill was standing on the pier

at Sullivan's when a stranger inquired the location of the accident. Pointing into the lake the newspaper man started to give information when his eyes rested upon the head of the drowned man.

The suction of the boat which passed a few moments before is said to have agitated the waters sufficiently to bring the body to the surface.

The negro was without a coat, wore black trousers, a white shirt and black shoes. He was apparently 25 or 30 years old.

Supporting the theory advanced by Charles Henry of Newark, that the number of drowned in the Buckeye Lake tragedy Thursday night would exceed two, rescue parties at the scene of the catastrophe Saturday morning recovered four more bodies, bringing the number of known dead to six.

One of the three bodies was identified as that of Myrtle McGillery, 14, of Columbus.

Her father, Henry McGillery, 982 Leonard avenue identified the body which was brought to Newark to be prepared for shipment and burial at Columbus.

Another was that of Elden Clenny, 17, son of Emma Clenny, 90 North Fourth street, Columbus.

The fourth body recovered today was that of Stanley Wilson, 22, of Delaware who was numbered among the missing from the first.

The other body is still unidentified, though the woman is believed to be from Columbus, a purse found in her stocking, having a return ticket to that place.

The three bodies were brought to the surface of the lake soon after 6 o'clock, a short time after the men using the grappling hooks started the work of dragging the waters.

Wilson's body was recovered about 11 o'clock. This work was suspended Friday afternoon after a fruitless effort on the part of the workmen to find more bodies.

All were found close together and in the immediate vicinity of the spot where the boat went down and where the frantic negroes struggled desperately to reach a point of safety.

As soon as the first body was brought to the surface, Coroner Wylarch was notified and gave instructions regarding the disposition of the corpse pending his arrival.

Soon afterwards another telephone message notified Dr. Wylarch that

Forgers of Referendum Petitions Scored by Governor and Atty. Gen'l

Millersport, O., August 9.—Before an audience of 5,000 farmers and their families, residents of Fairfield and Pickaway counties, Governor James M. Cox and Attorney General Timothy S. Hogan yesterday leveled force attacks against the forgers of petitions for referendum submissions of the Green, Warnes and Kilpatrick acts.

In addition the state's law office launched an assault upon the recently initiated constitutional amendment seeking a reduction in the membership of the general assembly and was vociferously cheered by the audience, which seemed in complete harmony with him.

Governor Cox replied to the satirical address of Senator Michael A. Broadstone of Xenia, delivered at the reunion of the general assembly at Cedar Point Thursday night. He said that he was a friend of the principle of the initiative and the referendum from the beginning, which was more than Senator Broadstone could say. The reason that he was participating in the affair that was now convulsing the state, was that he was desirous of defending the purity of the measure.

Attention was called to the fact that William Martin, now in jail, had confessed that the petition filed from Pickaway county, was a complete fabrication, not a citizen of that county having signed it. The present fight was the last stand of the interests against the beneficent workmen's compensation act, and it was being backed by the liability insurance companies working under many disguises. Emphasis was laid upon the point that of the 50 measures enacted by the administration not one had been honestly subjected to a popular referendum, indicating the general satisfaction of the state with them. The governor's auditors showered him with approving applause.

Attorney General Hogan told his hearers that he had begun to fight corruption from the moment he took office and that he was still engaged in the work. It was the same forces that he had met all along the line that he was today encountering. Under Governor Harmon he had been called upon to defend the first compensation act, attacked in the courts by these selfish interests. Later they had fought it in the constitutional convention and repeated their efforts at the special election. Now they were using the referendum in the last desperate effort.

"The man who criticizes a public official for engaging in the task of standing for an honest application of the initiative and referendum," he said, "is in the same position as if he should criticize that official for standing for a fair election and an honest count of the ballot. There is no material difference."

Mr. Hogan gave his hearers an insight into what his department had discovered in the way of fraud, misrepresentation and forgery in connection with the workmen's compensation act petitions and was warmly encouraged in his declaration of a purpose to prosecute those responsible for the criminal actions. His remarks upon the undesirability of a small legislature were listened to with avidity and no doubt was left as to the pronounced hostility of the gathering toward the amendment.

CAR SHORTAGE IS PREDICTED FOR THIS FALL

(Associated Press Telegram)
Chicago, Aug. 9.—Indications of a car shortage this fall are seen in a bulletin issued today by the American Railway association. It discloses that on August 1, there were 69,716 surplus cars on various lines throughout the country as compared with a surplus of 76,280 on July 15. It is regarded that this surplus will continue to decrease until the situation becomes acute in October.

There were 65,904 idle cars in the United States on August 1 last year and a car shortage of unusual severity occurred as soon as the crop movement began.

TO RECOMMEND IMPEACHMENT PROCEEDINGS

(Associated Press Telegram)
New York, Aug. 9.—While Governor Sulzer remains silent, members of the joint legislative committee which concluded its hearings here yesterday, began today drafting a report which it will submit to the legislature on Monday with reference to testimony adduced showing that the governor had speculated in the New York stock market using therefore campaign contributions which he failed to include in his sworn statement as required by law. In the opinion of Chairman Frawley of the committee and of Eugene Lamb Richards, counsel, no other course than to recommend impeachment proceedings is open to the investigators.

Whether the committee will subsequently return to New York to enquire further into the Governor's Wall street deals will be discussed by the committee at a meeting to be held in Albany on Monday prior to the convening of the legislature on Monday night. Chairman Frawley said yesterday, "We've got enough already."

Never in the history of this state has a governor been impeached. Should such a fate await Mr. Sulzer he would be put on trial before the Senate and the state court of appeals, sitting jointly. The court is now in recess and will not convene until September 29.

TIFFIN EAGLES WIN DRILL PRIZE

(Associated Press Telegram)
Baltimore, Aug. 9.—Grand officers of the Fraternal Order of Eagles, elected Thursday, were announced yesterday. They were:

President, Thomas J. Cogan, Cincinnati; chaplain, Colonel William L. Grayson, Savannah; vice president, Conrad H. Mann, Kansas City; secretary, John S. Parr, Kansas City; treasurer, Frederick Hughes, Yonkers, N. Y.; conductor, Thomas P. Gleason, Minneapolis; inside guard, William J. Cronin, New Haven; grand trustees, Fred C. Neave, Davenport, Ia., James Kelley, Cleveland, Lincoln Davis, Seattle and Fletcher M. Noe, Indianapolis.

The Tiffin, Ohio, degree team won the second prize for the best exemplification of the ritual. This amounted to \$750. The Worcester, Mass. aerial won first. The proposition to establish a home for aged Eagles was rejected.

WOULD ELECTRIFY RAILROAD LINES OF NATION'S CAPITAL

(Associated Press Telegram)
Washington, Aug. 9.—No puffing locomotive will come within twenty miles of the capital, if Representative Charles M. Thompson, a Progressive Republican of Illinois had his way. He has introduced a bill in the House to compel railroads entering Washington to electrify their lines within a radius of a score of miles of the District of Columbia.

Mr. Thompson contends that the proposed reform is not only hygienic but that it will permit the caretakers of the many public buildings of Washington to keep the white and clean through the elimination of smoke and soot.

Atty. Whitman Will Accept Nomination

(Associated Press Telegram)
New York, Aug. 9.—Following the announcement of District Attorney Charles S. Whitman that he would accept the Fusion nomination for the office he now holds, it was made clear today that the support of the Republican organization leaders will be thrown to the entire Fusion ticket, headed by John Burroughs, city hall mayor in the coming city election.

The Republican city committee meets August 19 to make designations for the ticket, it is now predicted the Fusion candidates will be formally endorsed.

Inquest On Young Girl's Death Will Be Held Some Time Next Week

MISS HELEN M. ANDREWS.

There have been no new developments in the death of the young Columbus girl, Helen McAndrews, who died in this city Wednesday morning from the effects of a criminal operation. The funeral was held from the home of her stepfather, Mr. and Mrs. Charles McAndrews in South Second street, Columbus.

The young girl's Columbus pastor stated to Father B. M. O'Boylan of this city that she had always borne a good reputation and nothing had ever been heard against her character and that she was the victim of some young man's wiles. She came to Newark to hide her disgrace and her death resulted.

Father B. M. O'Boylan who advised the girl to make the confession, today made his first public statement of his talk with Miss McAndrews. He said:

"The facts relating to the death of Helen McAndrews were obtained by me before I heard her sacramental confession and were it not for this statement, the character of an innocent third party would have

been ruined. Her first statement to me mentioned a married man as having been responsible for her condition. I urged her to make a truthful statement, warning her that her recovery was doubtful. Then she told the story which was later incorporated in a signed statement.

"The rights of an unborn infant were ignored and its life sacrificed by some one. By the same operation the girl lost her life.

"My only motive for the action which I took, was a desire to see that the innocent were protected, and that the guilty should be punished. I feel that I have done my duty to society and to the state."

The coroner's inquest will now be delayed until next week. Coroner Wylarch has been too busy with the work in connection with the Buckeye Lake tragedy to hold this inquest this week. The coroner stated Saturday afternoon that the inquest would be thorough and that if facts were disclosed which proved that the girl's death was due to a criminal act then the guilty would have to suffer the consequences.

WIFE KILLED HUSBAND AT SPENCER, N. C.

(Associated Press Telegram)
Spencer, N. C., Aug. 9.—Clay Grubb, a wealthy distiller, was shot and killed by his home on here today by his wife, who is reported to be seriously wounded. First reports say the shooting occurred in an encounter in which Mrs. Grubb played self defense.

CAR GOES OVER AN EMBANKMENT TURNING TURTLE

A Ford car jumped a ten foot embankment at the Dix Creek bridge, Friday night at 10 o'clock, turning turtle and spinning one of the occupants, a man, under the car. He received minor injuries. The other occupants were not injured. The front wheels of the machine were broken.

WREATH PLACED UPON GRANT'S TOMB

(Associated Press Telegram)
New York, Aug. 9.—The anniversary of the funeral of General Ulysses S. Grant, which occurred on August 5, 1887, would probably have passed unnoticed and it not been for the act of Robert L. M. Brown, who was a pall bearer at the funeral and who went down to Grant's tomb on Riverside Drive yesterday and placed a wreath on the great marble casket. Every year Robert Brown has come from his home in Boston on the anniversary day to pay his respects to the memory of General Grant in this manner.

ANDREWS WILL LEAVE PRISON EARLY MONDAY

(Associated Press Telegram)
Columbus, O., Aug. 9.—According to a previous announcement, former State Senator L. R. Andrews, of Ironton, who is serving a term in the penitentiary for bribery, was to have been released from the prison today but a further search through the records revealed the fact that the former senator's term will not expire until Monday. The error was detected today in the warden's office and Warden Thomas said that Andrews would not be given his freedom until Monday.

HAMILTON MAN KILLED.

(Associated Press Telegram)
Hamilton, O., Aug. 9.—The vacation trip of Mrs. Chris Wisniewski of 522 Franklin street, who with her daughter, Mahel, intended to visit Detroit, had a sad termination. Last night the husband and father was run over by a switch engine and killed. Mr. Wisniewski had accompanied his wife and daughter to the station and had seen them safely on the train. As he stepped back a switch engine, without warning, came along and knocked him down.

President's Personal Envoy Will Arrive in Mexico City Monday and Next Development Is Expected When He Presents Credentials to Huerta

DIPLOMATIC CRISIS BETWEEN THE TWO COUNTRIES MAY CULMINATE MONDAY

Wilson's Proposals to Bring About Peace Will Be Made Public After Their Presentation to Provisional President Huerta by Charge O'Shaunnessy After Receiving Them From Envoy Lind — Battleship New Hampshire Due Off Vera Cruz Tonight.

(Associated Press Telegram)

Vera Cruz, Mexico, Aug. 9.—John Lind arrived here on board the battleship New Hampshire at 1 o'clock. He was at once transferred to the battleship Louisiana.

(Associated Press Telegram)

Washington, Aug. 9.—(Bulletin).—President Wilson will meet the entire Senate foreign relations committee at the White House tonight for a conference on the Mexican situation. The entire membership of ten Democrats and seven Republicans was asked to be present.

(Associated Press Telegram)

Washington, Aug. 9.—Senator Williams of Mississippi, declared today he believed an organized effort was being made to bring on war with Mexico.

"In my deliberate opinion, there is now an organized and syndicated effort to bring about war between the United States and Mexico," said he, "organized with a lobby here, organized syndicated through newspapers, with money behind it and not all Mexican money."

(Associated Press Telegram)
Washington, Aug. 9.—The foreign relations committee at a special meeting today received the President's invitation to the conference. So far as was known the purpose of the meeting was not conveyed. Some Republican senators, however, have assailed the President's course in not taking the committee into full confidence, as they point out, President McKinley did in the Cuban crisis. Some senators have recently declared in the Senate chamber that news dispatches were their only source of information on the Mexican situation and have pointed out that as a justification for various resolutions asking investigation by a Senate committee.

President Wilson has felt that speeches in the Senate and resolutions were not helping the situation any and very recently expressed the view that certain Republicans were making the situation one difficult to handle peacefully. The conference tonight, which will be the President's first meeting with the most important one with Senate committees is expected to develop full information of the situation. It may possibly disclose to the senators exact terms of the proposals for peace President Wilson is transmitting to the Huerta government through envoy Lind.

The administration maintains its confidence that when Huerta understands the facts there will be no obstruction to Governor Lind's mission and that he will be allowed to discharge his duties as advisor to the American embassy without molestation.

That understanding is based upon the belief that Mr. Lind will scrupulously observe the etiquette of diplomacy and will not undertake to raise an issue as to his status by addressing himself directly to General Huerta or the Mexican foreign office, availing himself of the services of Charge O'Shaunnessy as an intermediary and mouthpiece for anything that he may care to say.

Mexican affairs were touched on only briefly at the session of the foreign relations committee.

While there is a strong sentiment in favor of definite action on several of the resolutions now pending particularly that to lift the embargo

on the exportation of arms to Mexico the committee did not discuss the possibility of action on any.

President Wilson's invitation to tonight's conference was transmitted directly to each senator but not discussed in the committee. There was a lull today in the openly hostile attitude of some Republicans who had insisted the President had not dealt fairly with the Senate in excluding its foreign relations committee from an intimate knowledge of his plans and policies.

Washington, Aug. 9.—Another threatened outbreak in the senate over the Mexican situation was today quelled by emphatic disapproval from Republicans and Democrats who joined in declaring that the senate should not by discussion lend weight to any efforts to intensify feeling in Mexico.

After Senator Smith of Michigan had opened the subject by declaring that the constitutional junta here had the ear of the state department and was influential in bringing about the resignation of Ambassador Wilson, Senator Williams of Mississippi replied with the charge that there was an "organized and syndicated effort" to bring about war with Mexico. He declared "there was money behind it, and not all Mexican money."

"Senators must hold themselves in check," said Senator Williams. "As we read many of the metropolitan papers, there is a sameness of statement, expression and opinion in certain of them that shows a syndicated money effort behind it. It is time we should pause. I don't feel even brave when talking about war with Mexico, a country disrupted, broken and torn with dissension. This question is too important to be discussed here for any personal advantage; for any small advantage to any persons."

Senator Crawford expressed the highest confidence in President Wilson and the state department, saying that they were entitled to the senate's united, sympathetic, loyal and complete support.

"I regret to observe any disposition or evidence or desire to hinder or make more difficult the work of particularly that to lift the embargo

Fell From Train and Man's Body Was Ground to Pieces by the Cars

With every bone broken and the body nothing but a mass of crushed flesh, the body of a stranger was picked up on the tracks between Fourth and Fifth street at 11:30 today, just after he had been run over by a freight train.

A man of medium height, middle aged, and wearing overalls, was attempting to ride a R. & O. freight train going west. He was seen by passersby to jump the train at Second street. Between Fourth and Fifth he evidently lost his balance and fell between the cars. The train passed over his body and literally reduced it to a pulp.

Cris Brothers' ambulance made a hurried run and the body was removed to their morgue in West Main street. Coroner Wylarch viewed the remains and the only possible clue to identification was a red card, a pass to the Central Branch of the National Home for Disabled Volunteer Soldiers, dated Nov. 4, 1912, and made out to Lewellyn Wynns, member of Co. M, 16th Regiment, United States Infantry, war with Spain, and signed by W. J. White, governor.

The pass was evidently for the Ohio State Soldiers' Home at Sandusky, of which W. J. White is governor. Efforts will be made to get into communication with Mr. White, to learn if possible, of any relatives of the man.

He also had a ticket in his pocket from Outville to Newark.

How G. O. P. Grafters Were Defended and Protected for Years

In the days when the state house was filled with Republican office holders and hundreds of thousands of dollars of interest earnings on deposits of the commonwealth's funds were being stolen each year by state treasurers and others, G. O. P. officials saw nothing wrong about these thefts. There were no prosecutions or effective steps taken to stop the illegal practice during the days of Republican ascendancy.

There was only ridicule from Republicans for Democratic officials when the latter proceeded against the grafters.

The attitude of leading Republicans on the referendum scandals conforms exactly to the position of non-interference with grafters and their booty, which Republican office holders assumed in the days of the state treasury scandals.

No one ever heard a Republican in the state house criticize one of the grafters who was filching money from the public treasury a few years ago. More than a score of crooks who peddled referendum petitions about the state and committed perjuries and forgeries have been arrested, but there has been little, if any, criticism of these scoundrels by Republicans, while the state administration has been fighting fraud and corruption and prosecuting the perpetrators.

The attitude of the minority party exemplified at the legislative reunion at Cedar Point Thursday evening, when every Republican who spoke, criticized Governor Cox's action. The state executive's activities have been confined to proceedings against the men who debauched the I. & R. Nearly all Republican newspapers have followed suit and have ignored the gross frauds perpetrated and the utter contempt shown for the law by the petition circulators. These publications lend no assistance to the men enforcing the criminal statutes against a corps of crooks who had no respect for such laws.

THE FRAUDULENT REFERENDUM PETITIONS

The question of whether or not there was fraud in connection with the securing of signatures to the referendum petitions of the Warnes and Kilpatrick tax laws and the Green Compensation act will be determined by Secretary of State Graves at an early date and after a complete investigation. Both sides to the controversy about the referenda will be represented in the hearings before Mr. Graves.

This sensible and effective method for getting an official ruling on the issues raised was made possible when Gov. Cox officially brought to the attention of Mr. Graves, evidences of fraud and asked for an investigation. In this fashion it will be determined whether the I. & R. law has been followed and submissions shall be made, or whether the petitions shall be allowed to remain on file in Mr. Graves' office.

In his message to the secretary of state, the Governor pointed out that the very interests that had always opposed the I. & R. were assailing the principle. He made the point that if abuses had been practiced, they would be revealed upon official investigation and then steps could be taken to safeguard the law. "If fraud has been practiced," continued the Governor,

nor," as the evidence in our possession would indicate it is the duty incumbent upon us, as representatives of the state, to press the prosecution of the offenders. If an honest petition for referendum has been presented the people must be permitted to exercise their constitutional right. If, on the other hand, an attempt has been made to dishonestly invoke the referendum, action should be taken with such dispatch and firmness as will establish a precedent for all times."

Attention was called to the fact that Burns detectives have been circulating petitions and as these were the same men who entrapped the Mayor of Washington, C. H. Burns, by the prostitution of a woman who is also a Burns detective, this was cited as additional evidence for an investigation.

THAT MISSION TO MEXICO IS NO MYSTERY

Ex-Governor Lind of Minnesota has been sent to Mexico on a mission. He goes as the personal representative of the president and his secretary of state. He is not accredited to the Huerta government, nor to the Carranza constitutionalists. He is not accompanied by a battery of gatling guns, nor by a retinue of diplomats. He is going simply as plain Mr. Lind, just as Benjamin Franklin went to London and Paris as plain Mr. Franklin.

This is so unusual a method of procedure in these days that Mr. Lind's mission has been seized upon by Sherlock-Holmes newspaper correspondents at Washington and heralded to the world with blazing headlines as a "Mystery" with a big "M."

The fact of the matter in Mr. Lind's case is that neither he nor his mission is a mystery. This country has no designs on Mexico. The president has no purpose of

forcing his advice upon either of the contending forces, nor upon an unwilling people. He is sending Mr. Lind to Mexico as a personal representative to care for American lives because the country has no legal established government to accredit him to. He is clothed with the power of an ambassador, but not the title. The mystery of Mr. Lind's mission is all in the imaginative minds of the lively press correspondents who in these days find the sensational news so greatly in demand.

News of events and conditions at Washington today give evidence that President Wilson proposes to take the whole American public into confidence on the Mexican question. There will be no mystery about his consideration, policy or action regarding our country's affairs with Mexico. This the American public will fully understand in due time.

Between the news and the weather we are certainly in the midst of pretty intense strenuousity.

The President is justified in insisting on the enactment of the Currency bill. The country needs a better currency system than it has; the interests of the party demand that the bill go into operation a good while before the next Congressional election, and delays are dangerous because they will stimulate the production of visionary and injurious schemes. The subject has been under discussion form any years, and it is foolish to speak as though it were a novelty over which the country must ponder long before action.

On Second Thought

Professor Simp says that the gold beaters art is one of the oldest of the industries. It is a regrettable fact, though, that the wife beater's is still older.

This is the 60th anniversary of the birth of Sigmund Scallops, the first recorded man to cut himself while shaving without uttering a swear word. Most historians agree that Scallops was deaf and dumb.

For the average man, marriage is the easiest thing to accomplish.

A man is good looking for ten or fifteen minutes after he has been shaved. The homeliest woman is beautiful when putting her baby to sleep.

If you can't get capital interested there is something wrong with your scheme. Anything that is reasonably certain to pay six per cent interests capital.

The good citizen often is stricken down at the zenith of his powers, but the worthless, inefficient man generally lives to an advanced age.

In town they say a man who shows undue emotional development is 'saddled.' In the country they say 'his grand-tather's overcoat wouldn't make him a pair of pants.'

A young man looks for fun, an elderly man looks for peace.

A woman is crazy about a man as long as he can induce her to believe some other woman wants him.

BETTER THAN SPARKING.

Sparking does not cure children of bed-wetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box W. Notre Dame, Ind., will send free to any mother her successful home treatment, with full instructions. Send no money, but write her today if your children trouble you in this way. Don't blame the child, the chances are it can't help it. This treatment also cures adults and aged people troubled with urine difficulties by day or night.

Uncle Walt's Philosophy

Evening Scene.

The western sky is tinted with rose, the day is ended now, and wearily the farmer goes to milk the milky cow. The cow has anger in her eyes, and life to her seems state, for all day long she's swatted flies with her black,ropy tail. The farmer takes his milking stool and sits down by her side. "So, boss! So, boss," we hear him drool, "dodgast your brindled hide! So, boss, so boss! I'll take a rail, or use a pitchfork's prongs, if you don't keep your doggone tail where your deranged tail belongs! So, boss, so-so and repeat! Be still, you pecky fool! You want to use your big splay feet to knock me off this stool! You've knocked the bucket half a buck, and still your tail you switch! Just wait until I get a rock—I'll show you which is which!" The dusk has deepened into night, the zephyrs whisper low; the stars present a wondrous sight, a million worlds through date the farmer trails his cow, and soaks her with a cedar rail though kindly and humane, can only know the strain—at eventide

Wisdom from Washington

By ARTHUR W. DUNN.

Washington, Aug. 9.—[Special.]—The caucus is mighty and will no doubt prevail on the currency bill as it lid on the tariff bill. "Enough Democrats to change the political complexion of the house," said a member of that party, "rose in the caucus and said the tariff bill would surely defeat them for re-election." Those Democrats could have defeated the tariff bill, but they bowed to the mandate of the party caucus.

At least a dozen Democrats declared in the senate caucus that certain reductions and free listing certain products meant disaster to them and the party in their states, but only two stood out and said they would vote against the bill. Senators who denounced features of the bill in the caucus supported the bill in the senate.

There is nothing quite so powerful as a well regulated caucus.

Second Class Rates Again. A forerunner of what may be expected in the coming regular session of congress was developed in a speech by Senator Bryan of Florida, who was opposing further extensions of the parcel post. He said that it cost the government 7.39 cents a pound more to carry second class mail than it received for the service, which is 1 cent a pound. He also said that was the reason why the country could not have one cent postage.

Commenting upon Bryan's speech, Senator Bristow, who is a newspaper owner and who has always opposed an increase of second class rates, says that it is the beginning of another fight for increased rates. He says the way the parcel post is being managed will largely increase the postal deficit and congress will look around for something to make it up, and the fight for an increase of second class rates will be the result; that under the system adopted no one can tell what the expense of the parcel post will be or whether it pays for itself.

Marshall's Reform. After the senate had wrangled for two hours one day about newspaper extracts and editorial comments Vice President Marshall remarked to a friend: "We must have a reform in the senate. I am going to suggest that only half an hour each morning be set aside for exercises relating to the output of the clipping bureaus."

Informers and the Truth. Senator Reed of Missouri, who has been conducting the examination of Mullball, says: "I have a great deal of experience with informers first and last, and while many of them give valuable evidence, it is a characteristic of informers that they cannot tell a straight story nor tell the whole truth. They may tell a great deal of truth, but at times they will wander. They cannot bring themselves to confess some of their own infamies connected with their story and thus break down and get tangled with the truth."

Shedding Tears. It was in the discussion of the Cambiotti case that Minority Leader Mann, in closing the debate on the Republican side, said: "I shed my tears for those who have been led astray; I shed my tears in behalf of the innocent while you protect the guilty."

Congressman Clayton, on the Democratic side, called attention to lapses by the Republican administration in similar cases in which leniency had been shown to indicted people. "The gentleman from Illinois, according to his own statement, shed half a bushel of tears over that California case. We have the very ludicrous position of the gentlemen getting down before this house and shedding tears and keeping on shedding tears. You are ashamed of your miserable performance and you come here now and shed penitential tears."

It is not very often that they get the best of Mann in the debates.

Gallinger and Gronna. Senator Gronna of North Dakota is one who often proclaims that he is a farmer. He voted for free granite, much to the displeasure of Senator Gallinger, who wanted protection for New Hampshire granite. They had some little talk back and forth, and Gronna remarked: "I voted for free granite in order to give the farmers cheaper tombstones."

"If I could select the victims I might agree with the senator from North Dakota," dilly remarked Gallinger.

the foreign relations committee," said he. "The administration may commit error, probably it will. It will have to be subjected to criticism; that is inevitable. But of the senate, a body which must participate in the settlement of international questions had a duty that should compel it to rise above partisan criticism."

Senator Williams declared Senator Crawford's "coon, disassonate state" would be applauded by all America.

Secretary Bryan said today that Mr. Lind would find instructions awaiting him at Vera Cruz. Their nature he declined to disclose and refused to say whether Mr. Lind was to proceed at once to the Mexican capital, or wait at Vera Cruz.

One unofficial view of that phase of the situation was that inasmuch as the Washington government is anxious to avoid an anti-American demonstration against Mr. Lind or to see any breach, committed before the envoy has opportunity to actually communicate President Wilson's proposals to Huerta, Mr. Lind might wait on the New Hampshire at Vera Cruz while Charge D'Affaires O'Shaughnessy transmitted the proposals to Mexico City.

Diplomatists not in accord with that view, pointed out that inasmuch as the original plan, known to the Mexican government was for Lind to proceed to Mexico City direct, any alteration at this time would not strengthen the administration's position and that the Washington government could under no circumstances, recede from its right to send an advisor to its embassy in Mexico City. The view of these observers was that any instructions to Mr. Lind at Vera Cruz probably would co-ordinate with the policy of correcting misinterpretations of his mission before he goes to Mexico City.

ASSOCIATED PRESS TELEGRAM

Washington, Aug. 9.—John Lind, President Wilson's personal envoy to Mexico will arrive off Vera Cruz on the battleship New Hampshire before night. He probably will not be in Mexico City before Monday and the diplomatic crisis between the United States and Mexico is not expected to culminate before that time.

The next development in the situation is expected when Mr. Lind, through Charge O'Shaughnessy presents to Provisional President Huerta, President Wilson's proposals to bring about peace. These will be published simultaneously in Washington and Mexico City, and at the same time will be transmitted as a matter of information to the powers of the world.

Whether Mr. Lind's presence in Mexico will be "undesirable" as has been stated by the Mexican minister of foreign affairs will then actually become known.

Administration officials here are reluctant to believe that will be Huerta's attitude after he officially knows the purposes of Lind's visit. They take the view that the attitude of hostility has been aroused by un-

Women Not Fitted Temperamentally to Run Autos

By MITCHELL MAY, Secretary of State of New York

WOMEN WHO ARE FITTED TEMPERAMENTALLY TO RUN AUTOMOBILES ARE SO FEW AS TO PROVE BUT EXCEPTIONS TO THE RULE. IT IS UNNATURAL FOR A WOMAN TO HANDLE POWERFUL MACHINERY, AND IT IS UNNATURAL FOR HER TO ACT IN AN EMERGENCY WITH THE SAME COOLNESS AND JUDGMENT TO BE EXPECTED IN THE AVERAGE MAN OF A MECHANICAL TREND OF MIND.

Of course almost any woman can learn to run an automobile when the COAST IS CLEAR and she is not confronted with the necessity for the quickest sort of thinking and the coolest harmony between brain and hand, combining in the action of a second the possibility of averting grave accident.

If I had my way it would be IMPOSSIBLE FOR ANY WOMAN TO GET A LICENSE TO DRIVE A CAR unless she had passed the SEVEREST SORT OF TEST and shown the same capacity for quick thinking, coolness and judgment that the most expert man chauffeur could show.

It is a crying shame that there is so little proper regulation of the automobile driving privilege in this country. There are over a million persons driving cars throughout the country, and thousands upon thousands of them are UNFITTED MENTALLY, PHYSICALLY AND MORALLY TO BE ACCORDED THAT PRIVILEGE. They should all be under the jurisdiction of the state and should get a license to drive only after being put through the STEEFEST SORT OF EXAMINATION.

The wedding of Miss Helen A. Kinney, 561 West Main street, daughter of Mr. and Mrs. Clem Kinney, and Mr. W. F. Miner, general sales manager of the Holophone company of Cleveland, will take place on Tuesday the 19th inst. Miss Kinney was Mr. Miner's stenographer when the general offices of the Holophone company.

Mrs. Frank Kelley entertained the members of the Sesame Sewing club at her home in North Eleventh street on Friday evening, honoring her guest Mrs. Lawrence Turner of Terre Haute, Ind.

Those present were: Mesdames Lawrence Turner, George Rodgers, Judson Bingham, Rhoda Anderson, Glen Carlinghouse, Frank Alexander, Wm. Flohr, Misses Louise Andrews, Ruth Rodgers, Margaret Bingham, Dorothea Flohr, Mary Turner, Messrs. Lawrence Turner Jr. and Archie Kelley.

Bereft of the delightful pleasure of a bathing beach, the younger society folks, and some of the older ones too, have invaded the summer haunt of the small boy and converted his very own "swimmin' hole" into a beach.

The cool waters of the North Fork of the Licking river just below the bridge at the waterworks are filled every afternoon with swimming parties. Matrons take their small daughters, the latter enjoying merrily their first outing in a bathing suit. Fathers take their small sons and duck them as initiatory to the first swimming lesson. The younger folks make up swimming parties and the roads are lined with autos of the bathers.

Bath houses have been erected, by popular subscription, and while crude they serve the purpose, and the spot becomes a miniature summer resort every afternoon from 2 to 7.

The fifth annual Hughes reunion was held August 2 at the home of Mr. and Mrs. R. S. Wilson. About 105 members of the Hughes family and a number of friends and neighbors were present. A most enjoyable day was spent by all as Mr. and Mrs. Wilson had left nothing undone in preparing for a very delightful occasion. The early part of the day was spent in renewing old acquaintances and bringing back to memory interesting events that occurred in former days. At noon each and every one was able to partake of or at least attempt to do justice to a delicious and sumptuous dinner. Immediately after dinner it was decided that the next annual reunion be held at the home of R. L. McKee on the second Saturday of August, 1914.

The following officers were elected to take charge of the work of entertainment for next year: President, C. C. Hughes of Utica; vice president, R. L. McKee of Tunnel Hill; secretary, Orville Hughes of Bladenburg; treasurer, R. S. Wilson of Tunnel Hill; program committee, Miss Estella Hughes of West Carlisle, Miss Maude Cullison of Tunnel Hill, Miss Hallie Hughes of Bladenburg; music committee, Miss Hallie Hughes of Bladenburg, Miss Estella Hughes of West Carlisle, Mr. Hallie Hughes of Newark.

Short extemporaneous addresses were delivered by Joseph Myers, C. C. Hughes, George Hughes, Rollen Clark and Orville Hughes in which many helpful and inspiring things were said. A prayer was offered by Mr. G. W. Hughes of West Carlisle to show our thanks and appreciation for the many blessings that we have received during the past year. The meeting adjourned by singing "God be with you till we meet again."

On Thursday, Aug. 7, at Mound-builders' Park, the Williams-Pugh family held a reunion. This family can trace its ancestry back to 1700. The old family home, a large stone house, is still standing on the river Wye at Bulth, Breconshire, South Wales.

A number of years ago this family reunion was a recognized institution but for some time past these meetings have been discontinued. During the summer of 1912 an effort was made to revive the old-time custom. As a result about fifty of the family living in the near vicinity met at the park on August 23, 1912, and spent a very pleasant time together. The meeting held on Thursday of this week was more than double the attendance of last year.

Among those present from a distance were: Mr. Samuel Lee Williams and Misses Mabel, Marlow and Myrtle Williams of Dexter, Mo., Mr. and Mrs. J. W. Williams and Miss Elizabeth Williams of Shelby, O., Mr. and Mrs. W. L. McCaughey of Marengo, O., Miss Belle Jones, Mr. D. C. Williams and Mr. T. Rees Williams of Columbus, O.

The following young people enjoyed a corn roast at Picnic Rock Friday evening: Misses Emma and Lillian Kammerer, Besse and Sue Tafel, Messrs. Frank Wolverton, Flay Shire, Fred Kirkpatrick and Fred Wolverton.

Misses Emma and Dora Seigle have returned home after spending several days in Zanesville and attending the Nehr-Contin wedding which took place at the St. Nicholas church Wednesday morning.

Friday afternoon Miss Mary McClure entertained in a delightful manner at her home in West Main street in honor of her cousin, Miss Josephine McClure of Elyria, O. The hours were pleasantly spent with needlework, after which a delicious repast was served.

The guests were: Miss Josephine McClure of Elyria, O., Miss Jessie McKee of Ashtabula, O., Miss Grace Young of Columbus, the Misses Mary Owen, Elizabeth Owen, Emma Morton, Ruth McKee, Inez Smith, Rose Schenberg, Minnie Mohlenpach, Ruth Stewart, Ruth Zentmeyer and Bessie McClure.

Gov. Cox

Will Ask Legislature to Amend Law Covering Referendum Petitions.

(ASSOCIATED PRESS TELEGRAM)

Columbus, Aug. 9.—Governor Cox said today that he will ask the legislature at its proposed special session the first of the year, to amend the present law regarding the time for the filing of statements concerning the expense accounts incurred by those who circulate referendum petitions and statements of money they received for this work. The law, as it now stands, requires that these statements be filed with the secretary of state ten days after the election resulting is held.

"That is like locking the door after the horse is stolen," said the governor. These statements, he insists, should be filed before the election and he will ask the legislature to make a correction of this feature which he regards as a weakness in the law.

The governor holds that the federal law which requires that statement of expenses and the receipt of moneys in connection with accounts of candidates be filed prior to the elections is more to the point than the present Ohio law and his request to the legislature will be that the present law be so amended as to more nearly conform to the federal law.

HORSEWHIPS

Used by Militant Suffragettes in an Attack on Physician of Holloway Jail.

(ASSOCIATED PRESS TELEGRAM)

London, Aug. 9.—A group of militant suffragettes armed with horsewhips assaulted Dr. Allan Campbell Pearson, the medical officer of Holloway jail as he was entering the prison gates. The attack was made as a protest against the treatment in the jail of Miss May Richardson, under a sentence of three months for breaking windows. Miss Richardson alleged that the doctor had threatened to deal with the suffragettes in such a way as to make them "physical and mental wrecks," after which they would be confined in lunatic asylums.

SWARTZ AND PARTY REACH FARGO, N. D.

Newark's three motorcycle tourists, James Swartz, Joseph Fromholtz and William Hutton, passed through Fargo, N. D., last Tuesday night enroute to Helena, Mont., where they will visit relatives. The Daily Courier News of Fargo has the following to say regarding the visit of the young men in that city:

"James Swartz, Joseph Fromholtz and William Hutton, three young men of Newark, O., reached Fargo yesterday on a motorcycle trip which will take them to Helena, Mont., and back to Newark. They are riding two cylinder Indian machines, having left the Advocate office two weeks ago Tuesday. They made good time except for a day and a half which was consumed in crossing an Indiana swamp. The party paid a call at the Courier News office last night. They declared roads through Minnesota were in excellent shape, much better than they expected from reports received from the Glidden tourists. All are well and enjoying the trip immensely."

Newark people will be glad to hear of the progress made by the boys. They are somewhat behind schedule as they expected to reach their destination in two weeks after leaving Newark.

COPPER MINE STRIKERS GO BACK TO WORK

Calumet, Mich., Aug. 9.—Copper mine operators today claim the complete rout of the Western Federation of Miners in its strike here for higher wages, an eight-hour day, abolishment of the one-man drill and recognition of the union. One thousand men returned to work today while 1000 have signed lists, asking the company to resume mining operations and give them protection.

Mary Johnson in An Address Before Virginia Solons

Statistics show that women are the more law-abiding sex, for 95 per cent of all criminals are men. Women are also shown by the census to be more literate, as a class, as two girls graduate from the high schools for every boy. Woman has won a place in business, too, for eight million women in the United States are wage earners. Thus, being an educated, self-supporting, tax-paying, moral, law-abiding citizen, there can be no doubt of woman's qualifications for enfranchisement.

Woman is the man lowest down. The power of government first belonged only to kings, and then to barons, and finally spread to all men. Now at least, woman, too, is to have a share in it. It is the mothers of humanity that have been penalized throughout the ages.

The home will not be destroyed by woman's participation in the government for nothing can destroy the individual home. But the whole concept of home is being changed. The government is taking over the functions that once belonged to the home—health, education, sanitation and a score of other matters. We are beginning to live in a great social home, as it were. And you can no more keep woman out of the affairs of this larger home than you could do without her in the smaller one.

And the gain in citizenship will be tremendous. We have few really good citizens now, and one of the reasons is that during the first formative years of his life, a boy is under the care of a woman who has no part in civic matters. But all would be different if the boy had a citizen mother who could train him in ideals of civic righteousness.

Moreover, men have their minds too much fixed on the large political issues, and there are a multitude of details that slip through their fingers, so to speak, and which women can better attend to. This is especially true of legislation concerning schools and children and the conditions of women and children that work.

In the states where equal suffrage has been adopted there have been great gains in this sort of legislation.

Mayor Gaynor's Order Overruled by Court

(ASSOCIATED PRESS TELEGRAM)

New York, Aug. 9.—Mayor Gaynor's order of March 25, closing all liquor-selling restaurants even to non-drinking guests at 1 o'clock, has been overruled by a decision of three justices of the Supreme court who declared that a restaurant may serve food at any time or hour of the night, provided the bar is closed. A restaurant keeper who was accused of violating the law, who said he had allowed patrons to remain eating after the closing of the bar, brought the case to the Supreme court for a test. When the order was first put into effect there was much trouble on Broadway, a number of persons in the midst of meals being unceremoniously ejected.

NEW CHARTER

(ASSOCIATED PRESS TELEGRAM)

Middletown, O., Aug. 9.—With little over 50 per cent of the vote cast, Middletown yesterday decided to have a new charter. The proposal received a majority of 98, the count showed this morning. The commission form of government is provided in the new charter. Five commissioners and a municipal judge elected by the people for a term of four years at a salary of \$500 is stipulated. The charter includes initiative, referendum and recall provisions.

PEACE PROSPECTS IMPROVED.

WOMAN SICK FOURTEEN YEARS

Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Elkhart, Ind.:—"I suffered for fourteen years from organic inflammation, female weakness, pain and irregularities. The pains in my sides were increased by walking or standing on my feet and I had such awful bearing down feelings, was depressed in spirits and became thin and pale with dull, heavy eyes. I had six doctors from whom I received only temporary relief. I decided to give Lydia E. Pinkham's Vegetable Compound a fair trial and also the Sanative Wash. I have now used the remedies for four months and cannot express my thanks for what they have done for me.

"If these lines will be of any benefit you have my permission to publish them."—Mrs. SADIE WILLIAMS, 455 James Street, Elkhart, Indiana.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and to-day holds the record of being the most successful remedy for female ills we know of, and thousands of voluntary testimonials on file in the Pinkham laboratory at Lynn, Mass., seem to prove this fact.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (under E. F. Smith's name), for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

LABOR NOTES

Delegates, remember the regular meeting of the Trades and Labor Assembly tomorrow (Sunday) morning. These regular sessions are all very interesting and largely attended. The interest in unionism is increasing greatly, and this meeting will be no exception. There may be new faces there that will need encouragement from the veterans in the work that have passed through the betterment of the craftsmen and laborer and wage worker.

Labor day is near at hand and much will have to be done yet and the committee in celebration has been busy and with your presence and your words of encouragement we will have one of the best celebrations Newark ever had.

The regular and special committees will have reports. The last meeting, July 27, was a hummer in point of attendance and interest manifested. The journal of last meeting was approved as read by Secretary Johnson, and many communications were read and referred to proper committees.

The seignior of the Printers' Union was duly obligated by President Morgan.

The Darrow proposition was discussed pro and con and the following committee on arrangements was appointed: Chairman, Bro. Demming; Bros. Denelsbeck, Cohen, Litten. It is expected that Mr. Darrow will be billed here the latter part of September for a lecture.

The assembly was closed in due form by Chaplain Lowery.

Oil and Gas News

In the Gratiot pool in Hopewell township, the Ohio Fuel Supply Co. has completed its initial test well on the Hamilton Bros. farm and it is a 10-barrel per day pumper.

In the Junction City development in Pike township, Perry county, the Planet Oil Co. No. 1 on the W. A. King farm is producing 65 barrels per day. In Jackson township same county, Vensel & Keating gave their initial test well on the W. O. Saffel farm a shot and it produced 120 barrels in the first 24 hours.

In the Payne pool, in Lawrence township, Washington county, C. E. Smith et al have completed their No. 5 well on the Fred Hoff farm and it will make a 25 barrel per day producer from the Maxon sand.

C. E. Stalker, writing from Cannel City, Ky., under date of August 2, says regarding the Cannel City field that there seems to be a wrong impression prevailing regarding that field. He writes, "When the field was opened up the first well produced 700 barrels per day for some time. At first four or five dry holes were drilled before it was determined in what direction the oil streak was running. The dry holes first drilled gave positive evidence that the streak was very narrow, which is very often the case in a new field. Until the Ohio Fuel entered the field all the wells drilled were by amateur business men, never having been in the oil business and by coal operators. In the past 30 days only one dry hole has been drilled against six or seven producers, making from 20 to 50 barrels natural, and when shot have and are now making from 30 to 250 barrels. The field is regular and not erratic. The field is broadening and other wells drilled that are now producing determine this fact clearly."

AN OLD HOLMES COUNTY GUNNER
It is announced that three companies of field artillery of the Ohio National Guard are to go into camp at Millersburg the week beginning August 17. The object of the encampment is field maneuvers and target practice. Some old time Holmes County men will doubtless remember that there was once a skilled artilleryman who lived near Millersburg in the person of a Frenchman named Augustus Gaudet, who took delight in loading an old cannon and lying down beside it and touching it off, to the amusement of bystanders. He had been a member of Napoleon's heavy artillery and was at the battle of Waterloo. He could describe how the great rainstorm at that noted conflict caused the big gun to sink in the mud to the hubs of the wheels as graphically as the celebrated Victor Hugo did in "Les Miserables," which was the reason, Uncle Gus explained, that "Nappy" failed to lick Wellington before Blucher could "come up."

Physically he was a splendid specimen of the kind of men Napoleon chose for his heavy artillery and he would doubtless be an interested spectator of the present day artillery maneuvers and target practice of the Ohio National Guard.

CRANDALL TRADE CAUSES FIGHT

(Associated Press Telegram)
Cincinnati, Aug. 9.—It developed yesterday that trouble, which has been brewing in the ranks of the Giants ever since McGraw traded Doc Crandall for Larry McLean, broke out Thursday night in an exchange of fatuities between several players and Manager McGraw. Doc Crandall was very popular among the members of the club and there were many mutterings when McGraw traded him for Long Larry. McGraw spoke of the trade as a "soft" thing for the Giants, saying that he had obtained a great catcher for a pitcher who was never a star and who had passed the stage of being of any great use to a first division ball club. This annoyed Mathewson and Merkle, great friends of Crandall, and sides were taken in the matter.

It was near midnight when five of the Giant team who had been spending the evening together, recalled the memory of Crandall's trade for Larry.

Vin Mugsy took his athletes to task for their late hours, high words were exchanged and several blows were struck. Two or three of the cooler heads prevented the matter becoming a general fight and the party finally returned in a body to their hotel. Outside of a bloody nose, said to have been sustained by McGraw, there was no damage done.

EXPECT DISPUTE ON REFEREE.
Vancouver, B. C., Aug. 9.—The manager of Freddie Welsh, the English light weight champion, said yesterday it could be definitely stated that Welsh would be Willie Ritchie's opponent in the fight scheduled here for the American championship on Labor Day. He said an agreement with the promoter with the exception of a minor detail or two had been reached. A dispute is looked for over the weight and the selection of a referee.

ASHE-DILLON DRAW.
Winnipeg, Man., Aug. 9.—George Ashe of New York gamely fought off the vicious attacks of Jack Dillon, Indianapolis, for 12 rounds last night and the bout was declared a draw. Although Dillon made blood flow in the first round he was unable successfully to continue the advantage.

TWENTY ROUNDS TO A DRAW.
San Francisco, Aug. 9.—Bob McAllister and Sailor Petrovsky, middleweights, fought 20 rounds to a draw here last night.

FIRST BLOOD SHED IN ORE DOCK STRIKE

(Associated Press Telegram)
Duluth, Minn., Aug. 9.—With the backbone of the Missabe ore dock strike broken, the steamer Pope, laden with ore, cleared from that dock this morning. The steamer Buffington was scheduled to get away today also.

The first blood of the strike was shed today on the main street of the city when Cannon of the Industrial Workers of the World and one of his leading aides clashed with Oliver Mining company policemen, following a controversy regarding an open air meeting. The aide suffered a deep scalp wound, and Cannon was bruised. The Duluth police say they had no part in the affray. President McGonagle of the Duluth, Missabe and Northern said that the strike was broken and that strikers were rapidly returning to work. The 60 men, augmented by 105 during the night, loaded 15,000 tons of ore. No ore boats were anchored today in the bay.

Business men of Duluth today condemned the Industrial Workers of the World and its methods in a set of resolutions.

LARGEST NAVAL RADIO STATION IN THE WORLD

(Associated Press Telegram)
Washington, Aug. 9.—One of the greatest naval radio stations in the world, even eclipsing in size the new station at Arlington Va., is to be constructed by the United States at Calicut, in the canal zone. It will be known as the Darien Radio station, and whereas only one of the Arlington towers reaches the height of 600 feet, all three of the towers at Darien will be that high.

The Darien plant, it is expected, will be able to communicate with San Francisco as well as with Arlington and to reach into the Southern seas as far as Valdivia, Chile, 421 miles south of Valparaiso, on the West coast of South America, and as far as Buenos Ayres, Argentina, on the East side. Throwing its waves across the Atlantic, this new station should communicate with the island of Vincent, 500 miles west of Africa. The Darien station will be exclusively for government business, principally as a relay station for communicating with naval vessels in Southern waters and the present wireless stations at Colon and Balboa, will continue to handle messages for ships using the canal.

Complete Program and Line of March for Labor Day Celebration Sept. 1

The General Labor Day Committee held an enthusiastic meeting last evening and transacted a large amount of business, not the least important of which was the selection of the line of march and marshals for the parade which resulted as follows:

Grand marshal, Ed. M. Streit.
First aid, Charles Greer.
Second aid, W. A. Archer.
Third aid, W. W. Litten.

Line of march—Form on First, Second, Third and Fourth streets, resting on Church; march west on Church to Sixth; south on Sixth to West Main; around South Side of Square to East Main; east on East Main to B and O; track; counter-marching back to square; west on North Side of Square to Hudson avenue; north on Hudson to Church; west on Church and abandoned. The parade will start promptly at 10 o'clock.

Program for afternoon as follows:
1:00 p. m.—Opening address by Wm. M. Morgan, president of the Newark Trades and Labor Assembly.

1:30 p. m.—Greatest polo, south side of square. Prize \$2. Greer, Patterson and Emmert in charge.

1:45 p. m.—Shooting the bullet, north side of square. \$2 baseball glove donated by D. L. Jones & Co. Hardware Co.; second prize, \$1.50 golf club canvas shoes, donated by Bingham Bros. Archer, Litten and Bingham in charge.

2:00 p. m.—Engagement extraordinary on south side of court house. Ralph Davis presents the Acme Van de Velle Co. in two and one-half hours of fun and amusement, featuring John Red Jones, the famous Irish comedian, Kern and Davis, novelty musical artists; Earl and Ludwig, class singers and dancers. This company will also put on other acts equally as good. Ed. L. Streit and entire committee in charge.

2:30 p. m.—Guinea Fly, West Main street. Prizes the guinea you catch. Streit, Coen and Bingham in charge.

2:45 p. m.—Apple contest. North side square. Prize \$3 vase donated by

Mohlenpaul China store. Greer and Emmert in charge.
2:45 p. m.—Fantastic parade. First prize, \$5 pair of shoes, donated by A. J. Stuchman, second prize \$3 hat, donated by Geo. Hermann Coen, Litten, Rooser and Streit in charge.

3:05 p. m.—Three-legged race, East side square. Prize \$2. Deming, Archer and Emmert in charge.

3:10 p. m.—Free-for-all race. Prize \$3 hat, donated by Rutledge Bros. Greer, Litten and Peterman in charge.

3:20 p. m.—Married women's race. First prize \$3.50 picture, donated by T. M. Edmiston; second prize, \$2.50 picture, donated by Besanency Bros. Bingham, Rooser and Streit in charge.

3:30 p. m.—Klondike race for young ladies. Prize \$3 umbrella, donated by Roe Emerson, Coen, Archer and Deming in charge.

3:40 p. m.—Sack race, prize \$300 hat donated by Collins the haberdasher. Litten, Bingham and Greer in charge.

3:55 p. m.—Running race for boys. Prize \$7.50 picture donated by Brilliant Company. Litten, Bingham and Emmert in charge.

It was decided to put a list of all local in a box, shake up and draw for positions in the parade. This was considered an absolutely fair plan, giving all the same chance and showing favor to none. This will be done and the result announced later.

The committee feels jubilant over the assured success of the affair in general and promises the public the greatest, best and most enjoyable day ever celebrated in Newark by organized labor.

Privileges for stands and booths around the square may be secured at reasonable prices by addressing Chas. Rooser, 30 German Street. Auto phone 3224.

APPLICANTS FROM LICKING WILL BE HEARD THURSDAY

(Associated Press Telegram)
Columbus, O., Aug. 9.—No announcement of appointment of members of county liquor license commissions will be made before the day these commissions become effective. Under the law these commissions do not become operative until Wednesday next.

Mr. Secrest explained that while it would be possible for the commission to announce the names of the members of the liquor license commissions of several of the counties of the state before next Wednesday, it was decided best to withhold the announcements until a majority of the selections had been made. For about a week the new commission has been besieged with requests and entreaties from aspirants to appointment and their friends, as well, and the commission believes that announcement of selections in a few counties would result in more concentrated effort on the part of candidates in other counties, thus handicapping the work of the commission.

"It is the purpose of the commission to carefully examine the qualifications of all of the applicants for appointment," said Mr. Secrest, "and then name the men the commission believes to be the best qualified for the place."

Columbus, O., Aug. 9.—The schedule for next week, as announced by the liquor license commission, at which time applications will be heard, follows: Tuesday, Hamilton, Butler, Montgomery and Fairfield counties; Wednesday, Lorain, Mahoning, Stark and Pickaway; Thursday, Summit, Clark, Jefferson, Lucas, and Putnam; Friday, Tuscarawas, Erie, Columbiana, Licking and Sandusky. Hearings will commence at 10 a. m. and be continued into the next day if necessary. Continued counties will be given preference over other counties in order of time for hearings.

No one need expect appointment unless he faces the board. This statement was made yesterday. If an applicant has friends who wish to speak in his behalf for him but cannot see the board on the same day that he presents his case they will be heard on the following day.

Rigid inspection of illegal traffic and "bootlegging" and strict enforcement of the laws is the promise of the commission, made in a statement issued yesterday. The new license law takes this work out of the hands of the dairy and food department. It was announced that part of the present force of inspectors will be continued for the present. The inspectors will be put to work immediately to acquire information as to what saloonkeepers are in sympathy with the new law and are sincerely in favor of saloon regulation.

This information will be delivered to county boards for use in determining who are entitled to licenses and who should be eliminated.

FIVE MORE

(Continued from Page 1.)

the other two bodies had been recovered.

The coroner and the Bazler & Bradley ambulance in charge of T. A. Bazler and Cliff Stewart made a fast trip to the lake, took charge of the bodies and brought them to Newark arriving about 10 o'clock. At about a large crowd viewed the bodies in the morgue of the undertakers, no one was able to identify them.

The body of the McGilley girl and that of Henry were taken to the Bazler & Bradley morgue direct from the park. That of the unidentified woman was taken to the morgue of Criss Brothers in West Main street, where it was prepared for burial.

None of the bodies was in bad condition, though they were somewhat bloated. Prompt work on the part of the undertakers stepped the progress of decomposition.

A careful examination of the clothing of the woman's body gave no clue as to her name or address. The woman is believed to be from Columbus, as her purse contained a return trip ticket to that city, besides 21 cents in change.

She was attired in a blue dress, the waist of which was trimmed with wide bands of a darker blue figured material from the shoulder to the waist line. Warts were found on both her ears. On her left hand were two band rings, one on the little finger and another on the middle finger. She wore black stockings and white shoes.

W. W. Wilson of Delaware, an uncle of Stanley Wilson, 16, was at the park when the first three bodies were brought in. He examined the body of the man but immediately stated that it was not his nephew. He had no hesitation, however, in expressing his opinion regarding the fourth body taken from the water. He positively identified it as that of his nephew, Stanley Wilson, reported missing.

The latter was in the ill-fated boat when it sank beneath the waters. He was in company with a chum, Robert Kirtley, about his own age, when the panic in the boat occurred. Kirtley states that he saw

Wilson struggling in the water but that he (Kirtley) was so intent on saving himself that he did not see what became of his chum. The Wilson boy was unable to swim and his relatives became convinced of the belief that he was among those drowned.

Friday afternoon one small charge of dynamite was exploded under the water where the boat went down in the hope that some of the bodies might be brought to the surface. This effort was unfruitful, however, and the work of searching for the victims was abandoned until Saturday morning. Many of the men who were taking part in the work had been a bit continuously since the catastrophe and were in need of rest. The work is being carried forward today with renewed vigor.

At the lake a number of colored men have remained continuously to aid in the search for friends who are reported missing. It is believed that a half dozen or more persons are still unaccounted for, though in some cases this estimate is based on mere rumors.

The fact that a half dozen arrests were made during the afternoon, the prisoners being taken to Hebron and locked up, may account for the failure of some of the lake visitors to return to their homes on Friday. One of the men arrested was charged with disorderly conduct at Hayes & Sullivan's place about the time of the accident. He was said to have threatened another negro with a knife. The others were charged with drunk and disorderly.

With a more calm consideration of the possible causes of the accident it has become a generally accepted fact that the damage to the boat was caused by striking a submerged "noater." The rudder encountered the log and became fastened to it. In the effort to pry it loose, a small piece of board in the boat's stern was torn off, making an aperture probably two inches wide and 30 inches long.

The ill-fated boat, "The Wilda," is still lying partly submerged at the Sullivan pier where an examination verified the description of the damage given above.

Charles Henry's launch filled with water is also tied up at this pier. This boat is uninjured, though its furnishings are water soaked. It will cost a considerable sum of money to place the launch in service.

The death of the McGilley girl is particularly sad because of the fact that she had been saved once and that for the foolhardy negro who leaped to the Henry launch, she would have been none the worse for her experience.

She had been dragged into the launch by Mr. Henry and was again plunged into the water when his boat was overturned by the big negro.

According to information secured Saturday, the freight boat "Ohio" which plies between the various lake points, encountered a log leveled to the water Sunday Thursday morning, ten hours before the fatal accident to the Wilda.

Five different times the "Ohio" struck the snag and succeeded in getting free of it without suffering serious damage.

The "Ohio" was also responsible for the recovery of the body of Stanley Wilson. The wash from the boat's screw agitated the water to such an extent that the lad's body, already filling with gas, came to the surface.

Charles Henry was not surprised Saturday by the sixth body from Buckeye Lake. Mr. Henry said Friday that he believed fully 10 people were drowned and he still thinks that more bodies will be found soon.

Mr. Henry has recovered from the effects of his thrilling experience Thursday night when he went to the rescue of the people thrown from the launch "Wilda." After fighting off two women who had grabbed him around the neck and almost drowned him, Mr. Henry managed to swim to shore.

MOTHER SECURES CHILD THROUGH SUPREME COURT

By an alternative writ of habeas corpus granted at Columbus Friday by Judges Schanck, Newman and Donahue of the Ohio Supreme court, Mrs. Angeline E. Crist of Thornville was awarded the custody of Rosetta Crist, age 14, her daughter, who has been in the custody of Chauncey Cooper of Thornville for a year past.

The petition for the writ was filed with the Supreme court by Attorney S. L. James of Newark, representing Mrs. Crist. Supporting the petition was a transcript from the common pleas court of Paulding county showing that Mrs. Crist got a decree of divorce from Phillip W. C. Crist April 18, 1913, in which she was awarded the custody of Rosetta Crist and another child. Cooper later obtained custody of the child through an action of the probate court of Perry county.

An action of this character on the part of the Supreme court is very unusual, writs of habeas corpus usually being obtained in the circuit or common pleas court. The fact that a mother was fighting for possession of a child prompted the court to admit the petition.

LUMBER MILLS CLOSE ON ACCOUNT OF STRIKE.

(Associated Press Telegram)
Cincinnati, Aug. 9.—Following close upon the announcement from the lumber mills that they would close their plants this afternoon until the teamsters' strike is over, a number of builders' supply concerns announced that they also would close on account of the handicap under which the strike has placed them. Several of the furniture factories have announced that they also will close today. Shortages of coal and lack of hauling facilities, due to the teamsters' strike, have made business unprofitable, it is claimed.

SICKNESS THINS OUT HORSES ON LAST DAY'S MEET

(Associated Press Telegram)
Kalamazoo, Mich., Aug. 9.—With a card of four exceptionally good races, the Grand Circuit came to an end here yesterday. Although sickness among the 300 horses shipped here to take part in the races, cut the field in nearly every race down to four, five or six horses, lack of interest in the events did not abate, the attendance this year exceeding all previous records.

Foot Prince, one of the few favorites to win during the meet, had no trouble in taking both heats of the 2:07 pace. The real contest in this event was between Warner Hall and Eddie Dillard for second place, each getting two seconds and two thirds and dividing the second and third money.

Dudie Archdale, driven by Frank Jones the Southern millionaire, easily won the free-for-all trot. Anvil broke twice in the first heat, and was distanced. Never once during either heat was any horse in the race ahead of Dudie Archdale. Ross H. and Ruth McGregor ran a good race for second place.

After a bad start in the first heat of the free-for-all pace, Braden Direct went into a break and finished fourth, but he had the speed in the next two. In the second heat Longworth B made a remarkable race from back in the field to second place and was close to Braden Direct at the wire.

Baron Direct, favorite in the 2:17 trot, started badly in the first heat, which Lulu Worthy captured rather easily. Thereafter the Baron was never in danger of defeat.

READY FOR THE ORGANIZATION OF REINDEER LODGE

The work of organizing the new fraternal organization, the Order of the Reindeers, is meeting with great success in Newark. Already 150 prominent Newark men have joined the order, and Mr. Earl B. Huffman, the state organizer, is busily engaged in completing preparations for the formal institution of the lodge.

The members of the Reindeers will be interested to learn that the Canton degree team will go to Beaver Falls, Pa. Sunday, where they will initiate 300 members into the order at that city. The emblems of the lodge will arrive in the city in a few days and arrangements have been made for the placing of a life size paper mache reindeer in one of the windows of a local business firm.

The lodge will probably organize with one of the largest charters in the city.

EQUITY MEN ARE HUSTLING FOR EVIDENCE

(Associated Press Telegram)
Cleveland, Aug. 9.—Today promised developments in the case of C. C. Meekison, the Henry county auditor charged with an attempt to remove Warnes and Kilpatrick tax law referendum petitions from the offices of the Ohio Equity Association here.

Interest of the public in the statement issued by Meekison last night was more than equalled by the interest taken in the document by the officials of the Ohio Equity Association and their detectives. The latter were hard at work assembling evidence which, they said, would "explode" Meekison's declarations. Considerable speculation was rife as to the importance of a sworn statement issued by Charles A. Dimm, of Clyde, O., a clerk for the Ohio Equity Association, who says that C. C. Smith, member of the Ashtabula board of review, approached him for aid in getting petitions from the association's office.

ARM CAUGHT IN TRACTION ENGINE IS BADLY INJURED

Oscar Farley, 21, of Utica was seriously injured when his left arm was caught in the gears of a traction engine at Utica late Friday afternoon. Mr. Farley has been driving the engine from the yards out on the pike and back again carrying the wagons to where work is being done on the pike. Friday afternoon he climbed back on the engine and attempted to adjust some of the machinery when he lost his hold and fell into the engine. His left arm was caught in the gears and was terribly mangled before assistance reached him.

He was placed by Dr. George Smith in Ben Keotek machine and hurried to the city hospital, reaching Newark at 5:30. It was found necessary to amputate the arm two inches below the elbow. Dr. T. K. Essington being the attending surgeon.

The patient is resting comfortably this afternoon. He is a married man and resides in Utica.

GREEN PARASOL SCARES HORSE: RIG DEMOLISHED

The flash of a parasol of bright green in the hands of a woman passing down North Third street Saturday morning caused a horse hitched in front of the store of Harry Mackenzie, to become frightened and run away.

The animal, belonging to John Harding of the Welsh Hills, broke the hitch strap, made a quick turn and dashed upon the lawn of the office of Dr. Turner. Here the buggy struck an iron pillar in the fence and the horse ran in and out among the trees until the buggy caught in front of the Dennis home and was smashed to kindling wood. The horse was caught on Hudson avenue and taken to a livery barn where it was later claimed by the owner who was not aware of the accident until he had finished some shopping and was making ready to return home.
